

## Cannabis Topical Consent Form

I consent that I am 21 years of age or older. I understand I must have a current I.D., and I.D. must be present at time of service. I have requested the "CBD Massage" treatment at my own risk. I understand that every person responds to topical CBD products differently.

CBD has been medically proven to be non-psychoactive because it does not interfere with psycho-motor and psychological functions. There have been numerous studies that show CBD is well tolerated and safe, especially in low doses.

While CBD has been legalized in the State of Oregon, it is still considered a Schedule 1 drug by the Federal Government and Country Massage is not responsible for any legal actions taken against you by any authorized agent or representative of the United States government, including but not limited to, the DEA and ATF.

Country Massage works to ensure the purity of our purchased CBD products. However, CBD oil can still contain minute traces of THC, and use of a high quantity of CBD oil can result in very rare instances of a "false positive" in less than 0.2% of all cases. Therefore, while it is extremely unlikely the use of CBD oil will result in a positive urine screening for THC, Country Massage is not responsible for any failed drug test.

I understand that any Topical CBD products I bring in to my appointment have to have no more than 0.3% of THC in the ingredients with a readable product label.

I further understand Topical CBD products are not intended to diagnose, treat, cure, or prevent any disease.
